

MICA ACIM

Annual Conference & Innovation Showcase

2023 ACCELERATING MINING INNOVATION

NOVEMBER 14 & 15 2023

Radisson Blu Toronto Downtown

GET READY TO HEAR ABOUT ACCELERATING MINING INNOVATION.

With captivating keynotes, expert panels, technical presentations, partner spotlights and networking opportunities, these 2 days promise to immerse you in accelerating the mining industry's journey toward achieving energy, climate, productivity, social and environmental goals.

Over two days, you will hear from industry leaders like:

Day 1

Valerie Maltais

Director of ESG,
Community and Government Relations
Coeur Mining

Day 2

Anthony Downs

Senior Technology
and Innovation Leader
Wamboin Partners

SESSION CHAIRS

KEYNOTE SPEAKERS

Day 1

Jim Keravala
CEO and Chief Architect
Offworld AI

OffWorld is building swarms of interoperable low-cost robots that can undertake autonomous end-to-end mining in both open pit and underground mines. Join Jim as he discusses how AI is being used in the future of mining, and what role OffWorld is playing.

Lunch Keynote

Peggy Bell
Executive Director
Resource Becoming

Data-Informed Growth: Crafting Forward-Thinking Strategies in Metals & Mining

In today's fiercely competitive metals and mining industry, crafting forward-thinking market strategies tailored for service providers involves meticulous planning, data-driven intelligent design, comprehensive execution, and a commitment to continuous growth and social performance improvement.

Day 2

Peter Bryant
Energy and Mining Expert Advisor
Clareo

Peter will share his insights into the future of energy in mining, drawing from Clareo's unique FastPath methodology that combines hyper-collaboration with a "minimum viable everything" approach. Learn how to prioritize fit-for-purpose capabilities and build optionality in your mining operations.

Lunch Keynote

Lana Eagle
Senior Advisor & Consultant
Lana Eagle Consulting

Indigenous Relations

Join Lana as she discusses finding a model that can work with respect to engaging with First Nation, Métis, and Inuit communities; the model is initiated with a "half-baked" plan that becomes more of a plan as we engage more with communities to figure out the "best" approach that a community would desire.

In addition to our informative keynote presentations, we have developed a series of panel discussions that will cover a wide range of topics such as:

- Mining Operator Perspectives on Innovation and Commercialization of decarbonization, sustainability impact and ESG
- Mining Operator Perspectives on Innovation and Commercialization of AI, Automation and Robotics Technologies
- Unlocking Business Development for Funded Projects: Revenue Growth Strategies for Bootstrapped Founders
